DETAILED ACTION

Reasons for Allowance

Claims 23-74 are allowable over the prior art of record. The closest prior art of record Wu et al. (Publication Number 2004/0066529), teaches unloading document element from RAM to free memory and determining required document elements that need to be in memory to create a page, however it fails to teach after changing elements then that partition is persisted in a second memory, these limitations being indicated in claims 1, 43 and 68 as "after a change in one or more of the respective collection elements of the another collection partition is persisted in a second computer-readable memory".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jay A. Morrison whose telephone number is (571) 272-7112. The examiner can normally be reached on M-F 8-4:30.
